

**Your Tanker - Lifeboat needs external water supply?
You want to check the spray system without lowering
the boat waterborne?**

Some of our customers asked for an external water connection for spray system at our lifeboats type CLR-T in order to check the spray pump and the spray system already in the davit without lowering the boat waterborne.

We listened to their needs and can offer you now this special equipment:

Part no. 172071

**Mounting of external water connection STORZ C for
suction socket of spray pump**

Price	: 1.200 € (material costs) ex works
Delivery time	: approx. 2-3 weeks after receipt of order ex works
Mounting	: 1 engineer one day

NEWS
